# In Wonder Newsboys

A vibrant, multi-colored nebula in space, featuring shades of purple, pink, orange, and green, with a dark starry background. The nebula's structure is complex, with wispy, filamentary clouds of gas and dust. The colors transition from deep purples and pinks on the left to bright oranges and yellows on the right, with a central region of lighter, more ethereal colors. The overall effect is one of cosmic wonder and beauty.
